**DETAILED ACTION**

*Allowable Subject Matter*

1. Claims 1-25, 27, 29, 30, and 32-40 are allowed.
2. The following is an examiner's statement of reasons for allowance:
  - Peng (6,526,151) discloses a speaker structure with two surrounds, where each surround has only one roll.
  - Sato et al (5,848,173) disclose a speaker structure with two dampers, each connected to the cylinder and the housing, and the dampers are located between the between the diaphragm and the voice coil.
  - Takewa et al (6,069,965) disclose a speaker structure with two surround, wherein each surround only has one roll and the second surround is between the voice coil and the first roll.
  - With respect to claims 1, 9, and 30, the Prior Art of Record does not suggest motivation to use a single roll damper in the structure of Sato et al. The Prior Art of Record also does not suggest motivation to move the second single roll in the Peng referencce between the first single roll and the voice coil.
3. Therefore, based on the amendments and arguments presented by the Applicant, the Examiner acknowledges the Prior Art fails to make obvious the Applicant's claimed invention.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
